Address: «Address_Line_1»
«City» «Post_Code»
D.O.B: «DOB»

Purpose of the medication support plan

Samaritans disability services have an obligation to ensure safe and reliable processes for supporting Service users in receiving medications. Services are to ensure that service users are offered the opportunity to manage any aspect of supply, storage and administration of medication where they have a capacity to do so in a safe manner.

The medication support plan is provided for the service to document clear and consistent practice guidelines for staff supporting a service user with medication.

All practices must comply with the Samaritans Disability Services Medication Policy

- Please list the where and when medication support is given.
- Detail in a step-by-step process any physical assistance, prompting and supervision that staff are required to give to support a service user with medication supply, storage and administration keeping in mind the service users preferences.
- Outline any skills building components or task analysis relating to medication
- Outline problem solving strategies for issues relating to medication e.g. refusal to take medication
