Therapy and Behaviour Support

Support that helps people flourish

We have a team of Speech Pathologists, Occupational Therapists, Psychologists, and Behaviour Support Specialists ready to work with you. We service all areas within the Hunter and Central Coast.

Speech Pathology.. Our experienced team of Speech Pathologists assist people who may have difficulties with speaking, listening, understanding and/or using language, reading and writing, developing social skills, stuttering and using their voice.

Occupational Therapy.. Our experienced team of Occupational Therapists are experts in assisting people to address their challenges and enhance their functional independence and daily living activities. Our experts assess an individual's mobility and sensory needs.

Psychology.. Samaritans Psychologists can support people to develop their social skills and build relationships, regulate their emotions and manage their anxieties. They can also assist families and carers with behaviour support strategies.

Behaviour Support.. Behaviour support is an evidence-based approach used to support people who have challenges regulating their thinking, feeling, and behaviour. Our behaviour services aim to improve the quality of life for the individual and are tailored to suit their needs.

Our services are flexible and tailored to suit your needs. Support can be provided in your family home or in the community as required.

Our Therapy and Behaviour Support Services are offered as a fee for service as well as being funded through the National Disability Insurance Scheme (NDIS).
